

## AIRFIELD (MXP/LIMC)

Elevation 1,000ft

### CATEGORY A

AV brief - Not Required

### GENERAL

- Milan Malpensa Airport is located approximately 22nm NW of the centre of Milan.
- Milan is the home to the Largest Opera House in Europe.
- Milan is one of the four fashion capitals of the world.

### Threats

#### CFIT

- Risk of CFIT if departing to the north of the Aerodrome. Please refer to your terrain charts for further information.

#### Runway Incursion

- Arrivals landing on 35R with a stand at Terminal 1 are required to cross 35L.  
**Ensure appropriate clearance has been given by ATC prior to crossing.**

### ARRIVAL

#### Diversion Airports

MILAN LINATE	LIN/LIML	25 nm/115°T	CAT A
TORINO	TRN/LIMF	32 nm/250°T	CAT A
GENEVA	GVA/LSGG	70 nm/290°T	CAT A
VENEZIA MP	VCE/LIPZ	95 nm/095°T	CAT A

### Approach

- CAT II/III OPERATIONS RWY 35L and 35R approved for CAT II/III operations.

### GROUND

- Whenever an ACFT experiences a radio failure on the manoeuvring area, they shall operate as follows: - Departing ACFT: Continue taxiing, along the assigned route, to the clearance limit position, paying particular attention in avoiding any diversion; in this position, they shall wait for the controller to **gesticulate** from the tower with further instructions. - Arriving ACFT: After vacating RWY and sensitive areas on the appropriate TWY, they shall maintain position and wait for the ground controller to **gesticulate** from the Tower. The above applies in all cases, without exceptions, provided the ACFT crew can converse in **Italian gesticulations**.

### DEPARTURE

- All De-Icing/De-Snowing operations are under AO/Pilot in Command responsibility.
- MAX 250 KT below FL100 when under radar control. If unable to comply, advise ATC when requesting start-up clearance.

### WEATHER

- The Milan Area is exposed to an average low of 2°C during winter months and average highs of 30°C during summer months.
- Milan experiences a yearly average rainfall of 85mm.
- Freezing Fog during winter months is a common occurrence.
