

PULKOVO AIRPORT (LED/ULLI)

Elevation 79ft

CATEGORY A

No AV brief required.

GENERAL

- **Pulkovo Airport** (IATA: **LED**, ICAO: **ULLI**) is an international airport serving St. Petersburg, Russia.).
- It consists of one terminal, *Terminal 1* which is located 23 km (14 mi) south of the city centre. The airport serves as a hub for Aeroflot and as focus city for Smartavia. Pulkovo International Airport is responsible for serving the citizens of Saint Petersburg, as well as the Leningrad Oblast: a total of 6,120,000 people.
- Two disused aerodromes to the S and SW. Two military aerodromes – one approximately 10 nm W and the second approximately 10 nm SW.
- In the Russian Federation, the normative friction coefficient is applied unless stated otherwise in Lido AOI. Ensure the correct measure of braking action is used.

Threat Based Briefing Topics**Runway Excursion**

- Very bright road lighting between runways may be confused with runway lighting.
- Although runways are kept clear of snow, Apron may be left hard packed.

ARRIVAL

- RWY as a rule are used in the mode of segregated parallel operations (one RWY is used for take-off, the other RWY - for landing) in the following combinations:
 - RWY 10L – take-off, RWY 10R – landing;
 - RWY 28R – take-off, RWY 28L – landing.
- In the periods of increased intensity of arriving ACFT air traffic the mode of simultaneous dependent parallel approaches can be used.

GROUND

- Lido AOI has extensive information on ground movement restrictions.
- Apron 1. Main apron:
 - stands 102 - 105 - international flights,
 - stands 106 - 109 - domestic flights,
 - Rossiya Airlines can use any stand for parking on arrivals,
- Aeroflot usually use stands 106 - 108.

- Apron 2. Additional apron.
- Apron 3. Former Pulkovo-2 apron. Located nearby Rossiya Airlines repair base.
- Apron 4. Helicopters and general aviation.
- Apron 5. Cargo apron.
- Apron 6. Pulkovo-3 - business terminal.
- Apron 7. Long term parking apron.

DEPARTURE

- No Notes

WEATHER

- Snow falls between November and March
- Frequent Fog, December to March
